

Sectioning instruments

preventive maintenance

Today's laboratories are measured by the efficiency and accuracy of their workflow processes. If even a single instrument goes down or malfunctions, patient test results may be at risk.

An investment in an EpreDia Preventative Maintenance Contract is a simple, cost-effective way to reduce the chance of your laboratory facing the pitfalls of downtime.

Our Field Service Team will execute all recommended service at the proper intervals. They will thoroughly inspect your sectioning instrument and perform any needed maintenance or repairs using only genuine OEM-approved parts.

Have confidence that your instruments will be up and running when you need them. Contact your local EpreDia representative and learn more about our service offerings today.
